Valereum Blockchain Plc

Issue of Shares

Further to the earlier RNS of today's date, Valereum Blockchain Plc (AQSE: VLRM), the Gibraltar based blockchain technology group, is pleased to announce that it has raised a total of £2 million before expenses by issuing 5,000,000 new ordinary shares of 0.1 pence each (the "Ordinary Shares") at a price of 40 pence per share ("Placing"). This is at a premium of 4% to the closing price of 38.5 pence on Friday, 22 October.

Pursuant to the Placing, the Company will also grant Investors a warrant to subscribe 1 New Ordinary Share in the capital of the Company for every two shares subscribed in the placing exercisable for a period of eighteen (18) months from Admission of the Placing shares at a strike price of 80 pence per ordinary share.

The warrants have an accelerator clause whereby in the event that the ordinary shares of the Company close above 80 pence per share for 5 trading days during any ten day trading period then the Company has the right to require warrant holders to exercise all warrants held by them within 7 days. Any warrants not exercised when so required by the Company will automatically expire at the end of the 7 day period.

Application will be made for the new Ordinary Shares, which will rank *pari passu* with the existing Ordinary Shares in issue, to be admitted to trading on the AQSE Growth Market ("Admission"). Dealings are expected to commence on or about 29 October 2021 and the issue is subject only to Admission.

Following the issuance of shares, the Company's total issued and voting share capital upon admission of the new Ordinary Shares will consist of 71,398,453 Ordinary Shares. This figure may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, securities of the Company.

END
